

DISCLAIMER: Supreme Cream Scanslations stopped scanning Gosu after the official English version was made available on Webtoon.com. Because the English version is several chapters behind its Korean counterpart however, we're providing weekly translations to keep fans up to date until it catches up.

Please don't use our scripts to release translated chapters, we would have done so ourselves if we wanted to see that happen. We're sorry, but we'll have no choice but to stop releasing the translations if that happens.
